

## Certiblanket<sup>™</sup> Thermal Insulator

The Certiblanket<sup>™</sup> Thermal Insulator is a removable/reusable flexible insulation cover that works as a thermal insulator for a sample probe directly at the point.

### APPLICATION

The Certiblanket Thermal Insulator is used with any probe or the Mustang Certiprobe<sup>®</sup> within a Natural Gas, Natural Gas Liquids (NGL), Liquefied Natural Gas (LNG) or Cryogenic pipeline or vessel sample conditioning system.

In Natural Gas and NGL applications the Certiblanket Thermal Insulator is used where a Mustang Pony<sup>®</sup> Probe Enclosure is not feasible. In order to enhance the insulation of the blanket, it is suggested to wrap the probe with heat trace tape.

### FEATURES

- Breathable rivets
- Full-length hook and loop closures
- Drawstring Ties

### BENEFITS

- Enhances insulation/thermal insulator
- Maintains heat for a sample probe when a Mustang Pony<sup>®</sup> Probe Enclosure is not feasible
- Removable and reusable
- Can be used with a Mustang Certiprobe<sup>®</sup> Sample Extractor

Natural Gas

LNG

NGL

## PRODUCT SPECIFICATIONS

Available Lengths	<b>6</b> inch
	<b>12</b> inch
	<b>16</b> inch
	<b>20</b> inch
	<b>30</b> inch
	<b>36</b> inch

### About Mustang Sampling

Mustang Sampling, LLC is the innovator of Analytically Accurate® solutions within sample conditioning systems. We provide custom solutions of products and services globally to the Natural Gas, Natural Gas Liquids (NGL), and Liquefied Natural Gas (LNG) industries. Mustang Sampling continues to pioneer integrated control systems, allowing our customers to maintain phase stability from sample extraction at the source through sample analysis. Our products are continuously improved and subjected to the highest quality standards which provides our customers with the best sample conditioning solutions.
