

Mustang Certidaptor[™] Mounting Bracket

The internationally registered and patent pending Mustang Certidaptor[™] Mounting Bracket is a uniquely configured probe housing element particularly suitable as a companion to the Mustang Pony[®] Probe Enclosure. Use of a Certidaptor mounting bracket eliminates the need to disassemble an overlying housing element from an enclosed adapter body and dispenses with disassembling the adaptor body from the pipeline.

APPLICATION

The Certidaptor Mounting Bracket is used to aid in gas and liquid sample extraction from a pipeline.

The threaded adaptor mounts directly into a threadolet and the outer diameter is available in various sizes. The Certidaptor Mounting Bracket is compatible with most insertion probes and works in conjunction with the CertiSeries[™] line of products including the Certiprobe[®] Threaded and Flanged Sample Extractor and Certiblanket[™] Thermal Insulator.

Natural Gas

LNG

NGL

Bio-Gas

FEATURES

- Available in various outer diameters
- Threaded adaptor mounts directly into a threadolet
- Adjustment groove for straight jaw pliers

BENEFITS

- Patent Pending
- Allows mounting of the enclosure onto a pipe without disassembling the probe enclosure
- Compatible with Mustang Pony[®] Heated Probe Enclosure, Certiprobe[®] Threaded Sample Extractor and other insertion probes

PRODUCT SPECIFICATIONS

| | |
|------------------|--|
| Applications | Mustang Certiprobe® Threaded Sample Extractor, Genie® and other Insertion Probes |
| Available Sizes | 3/4", 1" |
| Wetted Materials | Machined parts: 316 SS |

About Mustang Sampling

Mustang Sampling, LLC is the innovator of Analytically Accurate® solutions within sample conditioning systems. We provide custom solutions of products and services globally to the Natural Gas, Natural Gas Liquids (NGL), and Liquefied Natural Gas (LNG) industries. Mustang Sampling continues to pioneer integrated control systems, allowing our customers to maintain phase stability from sample extraction at the source through sample analysis. Our products are continuously improved and subjected to the highest quality standards which provides our customers with the best sample conditioning solutions.
