

## Certiblanket<sup>®</sup> Thermal Insulator

Mustang Sampling Certiblanket<sup>®</sup> Thermal insulator is a removable and reusable, flexible cover to thermally insulate sample conditioning systems within Natural Gas, Renewable Natural Gas, Natural Gas Liquids (NGL), Liquefied Natural Gas (LNG) or Cryogenic pipelines and vessels.

### APPLICATION

The removable Certiblanket works well in high temperature plant and field applications. The removable insulation blanket is designed to fit inaccessible areas that require thermal temperature control and protection. Each cover is designed to provide exceptional insulation while controlling convective, conductive, and radiant heat loss. The Certiblanket ensures that plant and field gas sample conditioning systems run efficiently and maintain engineering specifications.

Natural Gas

LNG

NGL

RNG

The Certiblanket is a part of the CertiSeries<sup>®</sup> Line of products.

Certiblankets can be used with:

- Flanges
- Probes
- Gas Chromatographs
- Equipment inside of enclosures
- Carrier gas tanks
- Fittings
- Pumps
- Valves

### FEATURES

- Breathable rivets
- Full-length hook and loop closures
- Drawstring Ties
- Custom Sizes

### BENEFITS

- Enhances insulation/thermal insulator
- Maintains heat for a sample probe when a Mustang Pony<sup>®</sup> Probe Enclosure is not feasible
- Removable and reusable
- Blankets can be easily removed and installed by maintenance team.
- Insulates hard to reach areas
- Protects employees from hot piping and valves.

### About Mustang Sampling

Mustang Sampling, LLC is the innovator of Analytically Accurate® solutions within sample conditioning systems. We provide custom solutions of Products and services globally to the Natural Gas, Natural Gas Liquids (NGL), Renewable Natural Gas (RNG), Liquefied Natural Gas (LNG) industries including Hydrogen Blending and Carbon Sequestration. Mustang Sampling continues to pioneer integrated control systems, allowing our customers to maintain phase stability from sample extraction at the source through sample analysis. Our products are continuously improved and subjected to the highest quality standards which provides our customers with the best sample conditioning solutions.
